SUMMARY

Software Engineering student (GPA 3.78) with a strong interest and experience in building web applications from both the user interface (front-end) with React and TypeScript, and the server-side (back-end) with Go, including building APIs and managing PostgreSQL databases using Prisma ORM. Eager to learn new technologies.

SKILLS

TypeScript, JavaScript, Go, React, Next.js, Spring Boot, Spring MVC, PostgreSQL, REST API Design & Development, Agile, Scrum, Git, GitHub, Vercel, IntelliJ IDEA, VS Code

WORK EXPERIENCE

Ecoprasinos Engineering

IT Assistant Intern

Jul 2022 - Sep 2022

Bandar Baru Bangi

- Provided IT support to staff, resolving hardware and software issues.
- Managed data using SharePoint, assisting with information system maintenance.
- Assisted in setting up and configuring computers, laptops, and servers.

PROJECTS

SK Saujana Utama - Achievement Tracking System

- Developed a full-stack web application using Next.js (TypeScript, React) frontend and a Go backend with REST APIs.
- Implemented CI/CD using deployment platform Vercel
- Centralized the school's achievement tracking, increasing efficiency by an estimated 50% through automated report generation.

Basic Game Catalog System

- Built a web application with Spring MVC, Spring Boot, Thymeleaf, and PostgreSQL for users to browse, search, and manage games.
- Implemented user authentication and role-based access control (RBAC) using Spring Security for administrative features.

Go Weather App

- Constructed a full-stack weather application with a Go backend API fetching data from an external weather service and a Vite React frontend.
- Implemented RESTful principles for frontend-backend communication.

Go PDF Converter

- Created a web application with a React (Vite) frontend and Go backend for Word to PDF document conversion.
- Integrated Go backend with LibreOffice CLI tools and used Go libraries for file processing and conversion workflow.

Rithfolio

- Created a portfolio application with Nextjs full stack with contact form intergration.

EXTRACURRICULARS

Sakura Seisaku Club (Universiti Multimedia Club)

President & Founder

Jan 2022 - Present

- Founded and led a multimedia club, growing membership to over 50 students.
- Developed leadership, communication, and event-hosting skills by organizing club activities and workshops.

EDUCATION

Universiti Teknologi Malaysia, Kuala Lumpur

Bachelor of Software Engineering (Hons)

Oct 2022 - Oct 2026

GPA: 3.78

Universiti Teknologi Malaysia, Kuala Lumpur

Foundation in Physical Science

Jul 2021 - Jul 2022

GPA: 3.87
